## Introduction

York County, located in southeast/southcentral Nebraska, has a population of 13,917 according to the 2016 Community Health Status Assessment conducted by Four Corners Health Department. The population is spread over the towns and villages of Benedict, Bradshaw, Gresham, Henderson, Lushton, McCool Junction, Thayer, Waco, and York. While the city of York is the center of economic activity, with a thriving downtown area and many retail establishments, agriculture is the primary economic driver across the county. Being positioned just three miles north of the intersection of Interstate 80 and Highway 81, hospitality and other travel related amenities support the economy of the county as well. Current demographics of the county are shown below:

Population by Age	Number of Persons
Under 5 years	923
5-14 years	1,724
15-24 years	1,879

## List of Team Members

**Description of Team** (how formed, how long meeting, how often meet/met, structure, etc.)

This team was formed as a result of the plan needing to be developed. Before this time, the former County Attorney was in charge of contacting the team and this information was lost when he moved to another position. Thus, a new team was formed with many of the same stakeholders. Leading the team is the York County Juvenile Support and Diversion Officer. The team includes a member from many of the groups who have direct contact with community members and who are invested in the success of the community as a whole. The team meet twice previous to approving the new three-year plan. All meetings were held on zoom due to health concerns.

## Closing Comments

York County uses a variety of agencies and invested parties to meet the needs of the youth in the community. While improvements are continuously made in working with all youth there is always room for improvement. Goals developed due to knowledge about gaps in service are:

1. Diversion will be used for all nonviolent first time offenders. This will focus on improving court procedures for youth and look at the overrepresentation of youth of diversity on multiple charges.
2. Address the continued growth of truancy in the county and especially look at the overrepresentation of Hispanic youth.
3. Address the high mental health needs of students in their sophomore year of high school.
4. Address the low family support for juveniles.
5. Investigate the rise in abuse/neglect charges.
6. Address the perceptions of drug and alcohol use.
7. Provide training and support to improve data entry.

A variety of agencies will be involved in these goals, working together to improve the outcome for youth in York County.

COUNTY NEEDS ASSESSMENT FY 2020-2021

Appendix: RED Descriptives ..... 22

Appendix: Sealed Court Records by Year..... 27

## Youth Level

- Hispanic youth are over-represented in chronic absenteeism compared to York County demographics and school enrollment.
- More youth have IDEA and 504 plans than the state comparison across all years.
- York County’s rate of youth who qualify for free/reduced lunch is lower than the state average but is still in the low 40%.
- 96.4% of students graduated in the last 5 years.
- 10<sup>th</sup> and 12<sup>th</sup> graders report higher rates of loss of sleep from worry compared to the state.
- 10<sup>th</sup> graders also report higher rates of depression and considering/attempting suicide compared to the state rates.
- 10<sup>th</sup> graders report a lower rate of feeling hopeful for the future than the state average.
- Across all grades, York County students report lower alcohol, binge drinking, marijuana, tobacco, and vaping than the state.
- Arrests rates in York County have decreased from 2018 to 2019, with a larger decrease in the Under 18 age group
  - Should be noted that across all ages, DUIs have almost doubled, and amongst the under 18 age group liquor laws doubled.
- JJI did not have risk assessment scores for diversion from the 2015-2017 assessment evaluation to include. If the county is not using a validated assessment tool, then it should begin doing so (there will be a statewide tool coming in July 2021). If the county does have assessment data in digital format for JJI to analyze, we would be happy to update this table.
- Law enforcement data by race and ethnicity would be very beneficial to have a clearer picture of RED. Compared to the overall population of York County, American Indian youth are overrepresented in youth with multiple charges, Black youth are overrepresented in youth with multiple charges, probation overrides, probation intakes, and probation successful discharges and revocations, and Hispanic youth are overrepresented at youth with multiple charges, probation intake and successful probation completion.
  - 23.1% of the juvenile cases filed in court with multiple charges are missing race/ethnicity
- Once referred, youth of all race/ethnicity are enrolling and successfully completing diversion at the rate to which they were referred.

## Family Level

- The number of people with bachelor’s degrees in York County is lower than the state; this could be a result of residents going to college in a different community and not returning to York County.
- York County has slightly less access to computers at home for youth under 18 compared to the state.
  - The rates of youth under 18 with access to internet at home are comparable to the state.
- 10<sup>th</sup> and 12<sup>th</sup> graders report feeling less supported by adults at home compared to the state.
  - All three grades report feeling supported by adults at school.

### Community Level

- 12<sup>th</sup> graders have lower perception of community attitudes on substance use for marijuana, alcohol, and cigarettes, 10<sup>th</sup> graders have lower perception of community attitudes on marijuana use.
- Juvenile record sealing is not “automatic” even if statute requires it to seal. Sealing a record requires administrative staff to initiate the process. Dismissed or dropped cases should be sealed at a rate of 100%. All others should be sealed at the rate to which youth successfully complete their court requirements (completion of diversion, probation, restorative practice, or other treatment).
- Data for race and ethnicity at each juvenile justice system point is imperative for an accurate Racial and Ethnic Disparities (RED) analysis. The court trial database (JUSTICE) has a high rate of missing data by race/ethnicity in this county.

### Policy, Legal and System Level

- This county is not a county required to provide counsel under statute; however, access to counsel is lower in this community than in the state.
- 3b absenteeism and uncontrollable filings have gone down over the last 5 years.
- With respect to diversion practices, the community may want to consider a few things:
  - Not filing all unsuccessful cases, if the youth completed most of the diversion plan
  - Allowing warning letters for the lowest risk youth
  - Having a process for sealing records for youth on diversion with law enforcement and JCMS, as required by statute.
  - It is not clear why all first-time offenders are not referred to diversion but perhaps this is due to the ineligible offenses.

**Neb. Rev. 43-272. Right to counsel; appointment; payment; guardian ad litem; appointment; when; duties; standards for guardians ad litem; standards for attorneys who practice in juvenile court.**

(1)(a) In counties having a population of less than one hundred fifty thousand inhabitants, when any juvenile shall be brought without counsel before a juvenile court, the court shall advise such juvenile and his or her parent or guardian of their right to retain counsel and shall inquire of such juvenile and his or her parent or guardian as to whether they desire to retain counsel.

(b) In counties having a population of one hundred fifty thousand or more inhabitants, when any juvenile court petition is filed alleging jurisdiction of a juvenile pursuant to subdivision (1), (2), (3)(b), or (4) of section 43-247, counsel shall be appointed for such juvenile.

### Community Team Level

- York County did not have any responses to the 2020 Collective Impact Survey.
- In 2019, York County's mean scores on the survey that year are all lower than the state average.
- With no responses, we cannot determine the make-up or diversity of the team, but in general community teams should be reflective of the community they represent.
- Community teams should also have representation from multiple system points.

The five elements of Collective Impact are:

- **Common agenda:** Participants have a shared vision and common understanding of both the problem and potential solutions to that problem.

## COUNTY NEEDS ASSESSMENT FY 2020-2021

- **Mutually reinforcing activities:** Participant activities must be differentiated while still being coordinated through a mutually reinforcing plan of action.
- **Shared measurement:** Collecting data and measuring results consistently across all participants ensures efforts remain aligned and participants hold each other accountable.
- **Continuous communication:** Consistent and open communication is needed across stakeholders to build trust, assure mutual objectives, and create common motivation.
- **Backbone support:** Creating and managing Collective Impact often requires a separate organization(s) with staff and a specific set of skills to serve as the backbone for the entire initiative and to coordinate participating organizations <sup>q</sup>
